Champion Meat Market

Here's a Chance For Big Money

Somewhere around the country there is a gent at large who is likely to be carrying a \$7,000 roll which he secured in a branch of the Bank of Montreal in Calgary the other day. He is a nervy customer, so use discretion in trying to relieve him of the seven grand.

One of the most vicious and brutal crimes in the history of the province occurred south of Calgary when Ernest Midwinter, taxi driver, was shot, tied up with wire and left in a nearby field by the four men he was driving. While he managed to roll close enough to the road to be discovered in the morning, his death on the following day is sufficient evidence of his condition when he was abandoned. The murderers secured \$15 from his person. Up to the present they have not been located, but everyone will hope that in the end they will get what they deserve—something worse than hanging if such a thing is possible.

As the result of a visit of a sign painter to town on Tuesday the Champion Pharmacy is now decorated with handsome signs both above and below the windows, the Long Louis Cafe windows are rejuvenated, and the hotel sample rooms will no longer be taken for an ice cream parlor. Bill's barber shop window was also decorated with an up to the minute sign.

VILLAGE OF CHAMPION MUNICIPAL DISTRICT OF HARMONY

HEALTH NOTICE

In view of the presence and spreading of cases of infantile paralysis in the Village of Champion and Municipal District of Harmony, and the possibility of an epidemic thereof, the following regulations must be observed, and any violation of same will be subject to the penalties provided by the Public Health Act.

Until further notice no person under the age of 18 years shall be admitted to any theatre, moving picture house, concert room, dance hall or similar places of public amusement or any clinic.

Until further notice no person under the age of 18 years shall be admitted to any church or religious house.

E. H. FREEZE, M.D.
Medical Health Officer.

Effective after date of publication.

Harvest Is Well On Way

Considerably cooler weather has prevailed during the week, the nights in particular showing the change. Some scattered showers interfered somewhat with operations, but not seriously, and harvest is progressing very favorably. A number of threshing machines have either started up or will be at work on Monday, an indication that those using binders are nearing the end of their work. Returns from combines continue to evidence a very satisfactory yield of high quality grain. In heavy fields swathing has been resorted to in many instances owing to green kernels showing in the straight combined wheat.

LOCAL AND GENERAL

F. V. Sisson has taken the agency for the Empire Cleaning and Dyeing Co. of Calgary. High class work guaranteed.

Fred Blachly of Vancouver arrived here last week and will remain for some time. He is highly pleased with the crops in this district.

Mrs. Garrison of Frank is on visit to her daughter, Mrs. R. Gardner. Ethel Gardner, who had been visiting at Frank, accompanied her.

Mr. and Mrs. A. B. Caldwell and Mr. and Mrs. Frank Caldwell and family returned this week from an extended holiday trip across the line.

Mr. and Mrs. Orr and Miss Edna returned from their holiday trip to Spokane and other points on Sunday. They report an exceptionally enjoyable trip.

J. C. Anderson had the misfortune to burn his hands and face badly on Thursday of last week, through the radiator cap of his tractor blowing off and splashing him with boiling water.

A shower on Tuesday stopped work in portions of the district in the afternoon. In some instances a little hail accompanied the rain, but not in sufficient quantity to do any real damage.

M. P. Diemert of Vancouver is in town and will remain during harvest. The coast must agree with Mark as he has taken on considerable flesh and looks ten years younger than when he left here.

A hound bitch, belonging to W. Coleman on the construction gang north of town, produced a litter of twenty pups the other day. As far as local knowledge goes this is almost more than a record.

G. M. Campbell was elected to finish the unexpired portion of A. McCullough's term on the school board at the meeting held in the public school on Saturday. There was a very small attendance at the meeting.

Don't take a chance with your health these days. Fats, Fruit and Live Chickens just don't go together. Tell your Jewish peddler to come around next January, and order your fruit from Campbell's.

A foundation garment must be worn to give the up to date silhouette, now so necessary to all well dressed women. Mrs. F. C. Alcock has taken the agency for the "Nu Trend," "Nu Mode," "Nu Bone" Corset Company, and will be pleased to give any information relating to styles for different figures. Comfort and support is assured when wearing a "Nu Bone."

We Will Buy 500 Dozen Eggs

We will pay

26c Doz., Firsts

24c Doz., Seconds

All will be graded

CAMPBELL'S

"Where They All Go."

JOHN DEERE COMBINES

12 Ft. \$1791.00, Cash. 16 Ft. \$2508, Cash.

Whether or not you are an expert thresherman, you will find in the John Deere Combine the features that mean most to you in harvesting your small-grain crops. Into it are built proved mechanical features that mean clean, thorough threshing and the simplicity of operation that is wanted, both by expert operators and by farmers who are not thoroughly experienced in the handling of threshing machines.

THURSDAY, Aug. 21, 1930

NOTES AND COMMENT.

A writer in McLean's Magazine is of the opinion that farming operations in Canada must soon come under corporation methods. In support of this idea the success of corporations in the United States is quoted. Naturally, if it is good business for the farmer to turn over the selling of his produce to pools, it stands to reason his buying should be done in the same way. For the same reason big farms under the management of an expert should be better handled than a dozen or a hundred little farms with sometimes very inefficient over-managers. The writer thinks all questions of over production in certain products would be eliminated by expert management and a system of mixed farming evolved which would be to the advantage of everyone concerned. It is admitted, however, that it is absolutely essential that the men put in control of the big farms must be thoroughly efficient and above reproach, a very difficult thing to achieve. Under this corporation system the inefficient managers or owners would be eliminated as a matter of necessity. The fact that every attempt at big farming operations in Canada by corporations has failed is attributed to poor management.

Such theories as the above are not new by any means and some futile efforts have been made to put them into effect. There are community farms in parts of this country but on every one of them the standard of living is away below the Canadian idea. The ultimate end of corporate farms might show profits for the corporation but its employees would lose their independence entirely. To standardize farming methods by districts would appear to be desirable, but any system which would eliminate private ownership with the privilege of withdrawing from an unsatisfactory arrangement, savors too much of Russian methods to be popular in Canada.

Now that an apartment dweller has been fined for operating his radio receiving set late at night to the annoyance of neighbors, the motorist who unnecessarily blows his horn may expect to receive official attention if he persists. Even the mildest of warning signals can be made to sound most offensive in the hands of a rude and impatient person. But what is there in the law to control the blowing of automobile horns? The Highway Traffic Act contains the following provision: "A person having control or charge of a motor vehicle shall not sound any bell, horn, or signalling device so as to make an unreasonable noise." Therefore, don't be "unreasonable"—General Motors Bulletin.

The United States corn crop for 1930 is estimated at 2,300,000,000 bushels, as compared to

2,800,000,000 bushels in 1929, the decrease of 500,000,000 bushels being caused by drought. Present prices of corn would justify the use of wheat to replace it for feed.

While the presence of infantile paralysis in the district is a matter of general regret there is no doubt that at this time the public at large will endeavor to assist in every way in confining the dread disease to those already affected. The reason for the annual breaking out of this disease will undoubtedly be fathomed in time and remedies applied. In the meantime take care of the children.

"Chicago," says a children's encyclopedia, "is famous for its canal provisions." And, of late, hardly less so for its potted citizens.—The Pasing Show.

Broomhall estimates the 1930-31 wheat crop at 2,125,000,000 bushels as compared to 2,025,000,000 bushels in 1929-30. The conclusion drawn is that there will be a further period of abundance and a low price for the premier cereal.

Textile manufacturers shouldn't get too happy over the increased business promised by the longer skirts until they take a look at this year's bathing suits.—Southern Lumberman.

To the province of Alberta goes the honor of making the first application for commercial space at the World's Fair Show to be held at Regina in 1932. This application came to the headquarters of the exhibition a day or so ago from the Peace River Co-operative Seed Growers' Limited, of Grand Prairie, Alberta. Other commercial firms have made inquiries regarding space, this, however, is the first completed application.

Government experts now say you can buy more with a dollar than you could this time last year, and worst we hope is that they are now at work on a bulletin telling where to get the dollar.—Macon Telegraph.

GOODYEAR'S ONLY

Here's the Reason

WE know tires. For years we've watched every make of tire in actual service. We've seen what it gives for its cost.

Our policy of selling only Goodyear is based on such experience. We've proved time after time that Goodyear's give longest, most satisfactory mileage. We've proved the stampan of Goodyear Superstar Tires and the great traction of the All-Weather Tread.

We make a smaller single profit on Goodyear Tires. But we gain through their quality selling more tires. And the complete Goodyear line gives us a tire and case for the particular need of every customer.

A Challenge To Canada To Put British Empire In Forefront Of Airship Transportation

A challenge to Canada to take the next step in putting the British Empire in the forefront of airship transportation through the inauguration of a trans-Atlantic service between Great Britain and Canada before the service between Germany and the United States, being planned by Dr. Hugo Eckener, gets under way, was voiced recently by Sir Denistoun Hursey, designer of the dirigible R-100, Sir Denistoun spoke before the Canadian Club, of Ottawa.

The sponsor of the first Great Britain-to-Canada airship flight asked for the formation of a committee of prominent Canadian business men to investigate the situation and decide whether the Canadian Government and business interests were prepared to back a trans-Atlantic airship service. With the views of such a committee before him, he would be in a position to lay a concrete proposition before the British Government on his return to London, England.

He was prepared, he said, to undertake at once the construction of an airship with a cruising speed of 85 miles per hour, carrying fuel for a 6,000-mile flight together with 100 passengers and 10 tons of mail. With a fleet of such vessels a regular service between Canada and Great Britain could be maintained, taking 2 1/2 days for the westward crossing and two days for the return trip. He named \$1,000 as the initial passenger fare, but predicted a gradual reduction until it would compare favorably with steamship fares.

It was time to take a bold forward step, Sir Denistoun asserted. If the British Empire was to be kept together culturally, economically and politically, a rapid means of communication had to be provided. A service to Canada offered better immediate prospects than would the proposed eastward service to India and Australia.

Before the proposal could be put in effect, he said, there were financial and political handicaps to be overcome. Referring to the presence of Mr. Bennett and Mr. King, he said with the co-operation of both parties the political difficulties would disappear. On the political side, he mentioned the necessity of long-term mail contracts and building loans at reasonable interest rates. On the financial side, all that was required was money, and if the business men of Canada got behind the scheme there would be no difficulty. There were no technical difficulties.

Dr. Hugo Eckener, designer of the Graf Zeppelin, Sir Denistoun said, was organizing a German-American company to operate a service between Germany and the United States. If Canada would co-operate the Canadian service would be in operation before the German.

"We could promise regularity of service by establishing an emergency base some hundreds of miles south of Montreal," said Sir Denistoun. "Would it not be a fine thing for Canada, if during the winter months, mails and passengers could leave Toronto or Montreal for London, England, in 48 hours? Now that the R-100 has flown to Canada, you can see it for yourselves. The commercial interests of Canada and the Canadian government have some solid basis on which to form their judgment."

"I want a revolver—for my husband."

"Did your husband say what make of revolver?"

"No, but I don't think that matters. He doesn't even know I'm going to shoot him."

Hurricanes in the West Indian sometimes bring to some of the small islands birds never before found there.

Frozen-egg plants in Shanghai, China, are operating at capacity.

"I could have had a fine job; \$25 a month with a fortnight's holiday with pay."

"And what came of it?"

"Nothing. I wanted the holidays before beginning"—Pages Gales, Yverdon.

Experiment With Reindeer

To Supply Natural Source Of Food For Eskimos Of Northern Canada

The re-stocking of the Canadian Arctic to supply a natural source of food for the Eskimos, is engaging the attention of the Northern Western Territories and Yukon Branch of the Department of the Interior.

A. E. Forster, who investigated the possibilities of the Western Arctic as a home for reindeer, has left for the west coast of Hudson's Bay, on a similar mission.

Mr. Forster and his brother, R. T. Forster, were commissioned by the Government, some years ago, to carry out an investigation in the western Arctic, to ascertain whether the country produced enough moss, lichen and other reindeer fodder, to support these animals in any number. The brothers reported favorably, and the Government bought 3,000 head from Loman Brothers, of Alaska. These reindeer are now on the long trail, and now have so many of the territory west of Hudson Bay. The latter problem depends on the herbage of the area north of the so-called lichen lands.

The Canadian Government saved the buffalo from extinction from North America by similar measures, and now has so many buffalo that they are being distributed all over the North West. It is hoped that the same success will attend the reindeer experiment, and that the natural increase of the Kitignawit herd will enable the stock of the territory west of Hudson Bay. The latter problem depends on the herbage of the area north of the so-called lichen lands.

Eskimos Play Golf

Ancient Scottish Game Introduced To Native North Of Churchill

Eskimos play golf—not a variation of the game like "African golf," but the real thing as practiced in Scotland.

Rev. Donald Marsh, graduate of Emmanuel Theological College, Saskatoon, who has already spent three years as a missionary to the Eskimos, has gone north again after a holiday.

Rev. Mr. Marsh introduced the game at Ekimino Point, 200 miles north of Churchill, last year. This time he took a stock of golf clubs, balls and tees with him.

Goes To Japan

Miss Beatrice Shand, Of Montreal, To Be In Charge Of Tokio School

Miss Beatrice Shand, of Montreal and Toronto, has been chosen principal of the international school for children of foreign residents at Tokio, Japan. Miss Shand will take up her duties upon the opening of the full term, September 15.

Miss Shand is a graduate of Acadia College, Wolfville, N.S., and has taken post-graduate courses at McGill University, Montreal. She is also a graduate of Miss Hunter's school for kindergarten training of New York.

To Inspect Fisheries

Hon. D. G. McKenna, Minister of Natural Resources for Manitoba, is travelling north to inspect fisheries of the province. His visit will touch stations, properties and industries along the shores of lakes Winnipeg, Manitoba, and Winnipegosis, and adjacent waterways.

You are no longer young if you still desire to read a book about somebody tells you it is instructive.

The Alleviance of people of the Philippines is \$35 a year.

Nothing To Fuss About

During the hearing of a case a man began chattering about in the back of the court room, pushing over chairs and generally upsetting things.

"Young man," said the judge, who had a reputation for ironic wit, "you are making a great deal of noise."

"I have lost my overcoat," the young man said, "and my overcoat, my worship," said the agitated young man.

"Well, well," retorted the judge, "people often lose whole suits here without half as much disturbance."

Judges For Community Progress Competitions

Competitions Among Rural Communities In The Three Prairie Provinces

Outstanding men and women, conversant with conditions throughout the three provinces, have been selected by the Canadian National Railways to judge competitions among rural communities in the three prairie provinces, which are of European origin, to be held annually for a period of five years, with three substantial prizes of \$5,000, \$2,000, and \$200, respectively, to be awarded each year in each of these provinces.

The judges are: Manitoba, Dr. John Mcleay, Principal, Manitoba College; Professor Joseph Fink, Principal, Provencher School, St. Boniface, and Mrs. David Wolf, Birtle, who has long been prominent in women's institutes. Saskatchewan: Dr. W. C. Murray, President, University of Saskatchewan; Dr. W. J. Rose, Editor, The Western Producer, Saskatoon, Alberta; Dr. R. C. Wallace, President, Alberta University; Mr. W. H. Fairchild, Superintendent, Experimental Farm, Lethbridge, and Mrs. B. B. Gunn, Lloydminster, prominent in the women's section of the Grain Growers.

The community which, through the co-operative action of its people, shows the best schools, the most regular attendance of pupils, the largest percentage of children going to school, the most numerous and enthusiastically supports community organizations such as agricultural societies, co-operative marketing pools, women's institutes and home makers' clubs, libraries, etc., which evinces the greatest interest and reveals the greatest progress in the improvement of agricultural methods, will be the winner of these substantial prizes.

Saskatchewan Fur Farms

Now 222 Registered Fur Farms In The Province

Rapid increase in the number of fur farms in Saskatchewan is indicated in a recent statement issued by the provincial game branch. There are now 222 registered fur farms being operated in the province, of which are for fur farms under provisions of the Game Act, such farms must operate under a government permit.

The number of farms of each species of fur-bearers follow: Fox, 101; badger, 64; mink, 59; muskrat, 41; raccoon, 13; coyote, 13; rabbit, 8; fisher, 3; beaver, 3; skunk, 3; martin, 3; weasel, 3; bear, 2. In addition, four fur farm leases are being operated, while 20 are pending.

The Interpreter

"Do you believe in drammes, Riley?"

"O do," was Riley's reply. "Bewhats it a sign for a married man that he's a bachelor?"

"It's a sign that he's going to meet with a great disappointment when he wakes up."

Caribian Caverns are no longer a National Monument but are a National Park.

The Alleviance of people of the Philippines is \$35 a year.

Canada's Claim To Arctic Area Between Mainland and Pole, Will Be Jealously Guarded

Registered and Certified Seed

New Regulations Are To Apply At Royal Winter Fair

An important forward step to promote the commercial production and distribution of registered and certified seeds in Canada has been taken by the Royal Winter Fair, to be held in Toronto, November 19 to 27. A new class has been added to the Royal program for growing crops of wheat, oats and barley, confined to competitors whose growing crops have been inspected in the field under the provision of the Dominion Seeds Act, and who have not less than 50 bushels of registered and certified seed grain for sale in a commercial way. The actual exhibit will consist of one-half bushel sample and may be taken from the current crop or that of the previous harvest.

By the same conditions the prize winning half bushels must come from a 50 bushel bulk of the same quality and must be entered in the unbroken package sealed by an accredited inspector at the time he inspected the sample with official seals and containers of the main commercial crop. Briefly this means it will be possible for farmers to buy seed grain by sample with official assurance that the bulk will equal sample. Prize winning in the past did not ensure the same quality, because entrants could hand pick the best half bushel from a large quantity of mixed grain. Over 80 prizes are offered. The prize money includes the Marquis group, Garnet, Reward, Huron and Minidum. Those varieties of wheat, oats and barley are approved for registration are eligible. Barley may be sown or two-rowed. The 1920 dates for the Royal Winter Fair are November 19 to 27.

Raspberries Yield Well

Grows In Wild State From Coast To Coast In Canada

Horticultural experts of the Dominion Department of Agriculture are authority for the statement that the raspberry is easily the most important fruit grown in Canada, and among the small fruits it ranks second to the strawberry. The annual production amounts to some 2,600,000 quarts, having a selling value of roughly \$400,000. This does not take into consideration the production from city lots and back gardens.

Wild raspberries are very considerable in volume. At a production rate of 1,500 quarts per acre it would take at least 1,500 acres to produce this crop and the greater wild plantations are planned to raspberries are close on to 2,500 acres. British Columbia is the leading raspberry producer, with the tartar close second. The raspberry is not a commercial crop in Nova Scotia, New Brunswick, and Prince Edward Island. It is cultivated to a profitable extent in every Province of the Dominion, and grows wild from coast to coast as far north as the delta of the Mackenzie River.

How We Spend Our Time

Estimated That A Man Of Seventy Has Spent Two Years Of His Life Shaving Himself

A Frenchman with a liking for curious figures has been counting up the time that a man ordinarily devotes to common occupations of life. He finds that a man of seventy has usually spent about nineteen years working, twenty-three years in bed, nine years amusing himself or being amused, one year in church, and two years shaving himself. This last portion of time he seems to consider as one of the great wastes of life. He is trying to imagine what he would look like if we all had beards, we are of the great wastes of life. Even if we did all save some time from shaving there isn't any real guarantee that we would put that time to any better use.—New Outlook.

Canada will watch with a "jealous eye" any "resembling" design on the part of a foreign power to establish itself within the same lying between the mainland and the North Pole, P. E. Corbett, dean of the law school of McGill University, said before the Institute of politics.

Dean Corbett, who addressed the conference on "Problems of Sovereignty in the Arctic and Antarctic," stated that Canada claims all discovered land lying between her mainland and the North Pole, and will probably assert a claim to any land that may subsequently be discovered there.

"Where occupation is not yet possible the Canadian claim is justified by principles of territorial propriety and possible strategic importance," he said. "These principles have never hardened into rules of international law, but they have been urged from time to time as moral and political, if not legal, grounds for the appropriation of unattached lands."

In the present time, the main interest in the Arctic is in its position as the possible future highway of inter-continental air traffic. The main way between Great Britain and the western part of Canada is across these northern latitudes, and the main way between the northwestern United States and northern Europe. Landing and refuelling stations along the route will be a prime necessity, and if such stations are on our northern hinterlands are to be within control of any one power that control ought to be Canadian."

Dean Corbett stated that the question of internationalizing the polar regions will be a prime necessity, development in aerial navigation takes place, but that the United States has hitherto displayed slight enthusiasm for such a project and without her it would be foolish to think of any such scheme in polar regions.

"In making a claim in this connection," Canada, which has in what may be regarded as a legitimate expectation of producing within the next half century into the ranks of the first-class powers, will be bound to pay careful attention to developments of such a project and without her it would be foolish to think of any such scheme in polar regions.

Value Of The American Hen

Poultry Industry Supplies About 10 Per Cent. Of Total Income

The cow, the sow and the hen are greater farm-income producers, according to United States official statistics, than wheat, about which we hear so much nowadays. The poultry industry, that "mere sideline" which so many farmers neglect, supplied about 10 per cent. of the total income of American farms during 1928. The egg sales were estimated at \$717,000,000 and the sales of chickens at \$458,000,000—a total for the poultry industry of \$1,175,000,000 as compared with a total farm income of \$11,750,000,000. These figures do not include the value of chickens and eggs consumed on the farms—an item which doubtless runs into seven figures.

Of Special Interest

The research work of the Health of Animals Branch of the Dominion Department of Agriculture is attracting international attention, particularly in relation to the control and eradication of Tuberculosis, and the control of "Bovine" Disease. When the members of the British Medical Association visit Canada this summer their itinerary includes a day to be spent in the new laboratories of the Health of Animals Branch of the Dominion Department of Agriculture at Hull, P. Q.

Shaw's Early Literary Effort

Nearly One-Seventh Of Canada Lies Being Published For First Time

George Bernard Shaw, who began his literary career as a writer of a half-century ago before turning to playwriting, is to appear again in the role of a fictionist. The dramatic first novel, written 41 years ago, but laid aside when a publisher could not be found for it, is to appear in September. It was disclosed by William H. Wise, New York publisher.

This early work will be included in a collected set of Shaw's writings, the first five volumes of which will appear simultaneously in London and New York. The author was 23 years old when he penned "Timid Turley," which was refused, Mr. Wise said, by some 60 British and United States publishers.

This little caplet knock may be for playtime or for "dress-up" occasions, according to the fabric chosen for its trim.

It's very French! It closes at either shoulder with a pretty bow.

The scallops provide effective trim. It is butter-yellow yellow fabric. The scallops are accented by bias organza in soft cocoa brown shade.

The bows of taffeta ribbon make the trimming.

It's very quaint and pretty in tiny checked gingham for children and white with scallops bound in plain orchid.

The bows are omitted and replaced with two decorative ball-shaped pearl buttons at either shoulder.

Style No. 2549 is designed for wear made of 2, 4 and 6 years.

Pattern price \$1.00. Be sure to fill in size of pattern. Address Pattern Department.

TEE OFF WITH BOW AND ARROW

The arrow beat the golf ball to the cup in a contest staged recently on the Banff Springs Hotel Golf Course, when Ned-Haw Monse (Lone Walker), and Umbaka Wah-Zee (Lone Eagle), lined up in a foursome against the Willie Thomson professional of the course, and his daughter Mrs. Peggy Daigfield, former Alberta Lady Champion, over nine holes. The Indians used bow and arrow while the golfers played with the usual clubs and balls.

The contest was held at a four-hole disc set up on the cup. Both sides were even at the eighth, and then the Indians won on the ninth. The unique contest excited much interest and enthusiasm among the hotel guests, who formed a large gallery following the play.

The Russian Menace

THREE DELEGATES APPOINTED FOR LEAGUE MEETING

Ottawa.—Canada will be represented at the next meeting of the assembly of the League of Nations by Sir Robert Borden, Senator Chapais and Hon. Mrs. Mary Irene Parby. It was announced here recently. The assembly meets in Geneva early in September, and before that there will be a meeting of the council of the league. Canada's representative on the council will be Sir Robert Borden as leader of the Canadian delegation.

Sir Robert Borden, Canada's wartime premier, has long been a staunch advocate of the league. He was one of the original signatories of the League of Nations in 1919, out of which grew the league assembly and the council.

Senator Chapais, a member of the Quebec, has won distinction by his historical writings. He is the author of a number of books. He has for some time professor of history in Laval University. He was a minister without portfolio in the Taitton government, in Quebec, and represented the government in the legislative council back in 1903. He became a senator in 1919.

Hon. Mrs. Mary Irene Parby is minister without portfolio in the Alberta Provincial cabinet. She represents Lacombe in the legislature. She was provincial president of the United Farm Women of Alberta, for four years. For several years she was a member of the board of governors of Alberta University. In the last two provincial general elections she has been returned as a candidate of the United Farmers of Alberta.

Canada Butter For China

First Test Shipment Of Dairy Butter Will Go Forward On Sept. 4th

Victoria, B.C.—Close on the heels of a successful trial shipment of B.C. fresh milk to the Orient comes word of a special order for the shipment of prime dairy butter to Hong Kong, now being arranged through the Department of Agriculture.

On September 4, the first test shipment of butter within the knowledge of the department will be forwarded to the Far East. If the shipment is successful it will be followed by the opening of a considerable market for B.C. butter. The prospect of landing fresh dairy products on this coast has attracted wide attention in the Orient and will be developed on a most extensive scale if the results warrant it.

The butter will be shipped to Hong Kong in care of the Canadian trade commissioner at that point.

Calgary Cadets Win Trophy

High School Cadets Capture United Empire Trophy at Ottawa

Connaught Ranges, Ottawa, Ont. Calgary high school cadets won the United Empire trophy, open to the cadet team making the highest aggregate score in the Dominion of Canada rifle matches at the Dominion of Canada Rifle Association meet here. The Calgarys scored a total of 672 points, as against 966 for Hamilton, Ont. Central Collegiate "A" team, and 963 by Winnipeg Highland Collegiate.

Infantile Paralysis in East

Oshawa, Ont.—Two deaths from infantile paralysis were reported by the health authorities here recently. The victims were Eddie Currie, 10, and Albert W. Ferguson, the same age. No new cases have been reported by medical officials, and the number now remains at 12. There has been no change in the situation in East Whitty township.

Adopt Rotary Plan

Windsor, Ont.—With the object of providing at least some employment for its members, and to tide them over the present period of depression, the local rotary club is attempting to introduce a "rotary" system of employment on construction work in the border cities. Thus, each man would work one week and be idle the next.

Motion Picture Operator Killed

Edmonton, Alberta.—V. A. Crawford, Westlock, Alberta, photographer and motion picture operator, was killed instantly when his car was struck by a motor car while driving on the road a mile from Giviere Di Barre, and upset in the ditch. According to Alberta provincial police reports, Mrs. Crawford escaped serious injury.

W. N. U. 1851

Tribal Unrest Spreading

British Forces in India, However, Appear To Be Handling Situation

Peshawar, India.—The spirit of tribal unrest appears to be spreading on the northwestern frontier, with British forces tightening the defence by increasing aerial bombing operations and rushing fresh troops northward.

Most of the Afridis who have been active in this strategic area for a week have withdrawn under constant bombing, but meager reports from the countryside indicate that they have spread in all directions and all branches of the tribe have taken up arms.

An indeterminate number of Drakhs have joined the Afridis, a party identified as Massozas attacked Badant Post, and the Chankennis were on the war path until the air force informed them that their own villages were being bombed unless they ceased their depredations.

Peshawar itself was quiet, and apparently most of the assaults have been withdrawn since heavy bombing. One party attacked the cantonments, however, inflicting a scattering of deaths, but did no damage. They withdrew at dawn.

Meanwhile, fresh troops arrived on an armored train from Lahore. The city gates were opened for it, but ordinary trains must stop at Nowshera and the passengers continue here by bus.

The six squadrons of army airplanes on duty in the sector are credited with downing up to the time for a mass attack on Peshawar. In one day these machines dropped 6,000 incendiary bombs, and they have made daily attacks since the heavy bombing. On one instance they spotted the 1,500 Massozas who attacked Badant Post, and wounded 20 of them.

Will Oppose Stevens

Independent Labor Candidate Announces His Intention Of Running

In East Kootenay, B.C.—Opposition to Hon. H. H. Stevens in the by-election in East Kootenay, where the Minister of Trade and Commerce, will be election shortly, cropped up here. William Robson, dismissed from the Provincial Labor Bureau on Monday, announced he will oppose Mr. Stevens at the by-election as an Independent Labor candidate.

Mr. Robson has been identified with Labor interests since 1880, and is a well-known figure. He has been employed with the Labor Bureau for the past seven years. As a result of the East Kootenay election, a meeting to be called within a few days.

M. McLean, of Fernie, Conservative, defeated in Vancouver in the recent election, and resigned to make way for Hon. H. H. Stevens, defeated in Vancouver, has given a portfolio in the Bennett administration.

Massey Interviews Premier

Ottawa, Ont.—Following a three-quarter hour conference between Premier R. B. Bennett and the Minister of Finance, Mr. Massey, in the prime minister's office in the East Block, Mr. Bennett said, "I asked Mr. Massey to see me here today to have a very serious talk." The prime minister went no further than that, and Mr. Massey, when leaving, declined to discuss the visit.

Wins Scholarship

Lloydminster, Sask. Duher, Clark, of Lloydminster district, graduate from the University of Saskatchewan with high honors in history and economics, has been awarded a \$500 scholarship for 1930-31, from the Canadian Pioneer Province. The award was made from Queen's University, Kingston. He will study history under Prof. S. K. Morton, of the University of Saskatchewan.

Across Continent In 15 Hours

Valley Stream, N.Y.—Beating by more than two hours the transcontinental air record Col. and Mrs. Charles A. Lindbergh took from him last April, Capt. Frank M. Hawks flew from Glendale, Cal. to Curtiss Field recently, in 12 hours, 25 minutes and three seconds.

B.C. Miners Entombed

Merrill, B.C.—One miner killed and 30 are entombed as the result of an explosion in the Coalbrook Colliery, Coalbrook, near Princeton. Word reached here of the disaster, and plans are being considered to send men to help free the entombed miners.

Plane Saves Life

Burlington, Vt.—Anthrax antitoxin, shipped here recently from Montreal by aeroplane, and dropped by parachute, saved the life of a bush-farmer whose employee suddenly died of the deadly, fast working disease.

Alberta Protests

Claim That Foreign Immigrants Are Being Dumped In Province

Edmonton, Alberta.—Capt. E. M. Johnson, superintendent of the Soldier Settlement Board, frontier, with has been asked by the Department of Labor, at Ottawa, to investigate charges that 200 German immigrants "dumped" in Alberta last week. The inquiry has been requested as the result of a telegram of protest from Premier R. B. Bennett by Hon. George Hoadley, acting premier of Alberta.

Denial of the allegations has been made by the steamship company concerned, and by the editor of "Der Herold," German newspaper here, but Walter Widmer, secretary of the association of German-speaking workers, insists the charges he leveled are well-founded.

UNEMPLOYMENT SURVEY IS MADE BY GOVERNMENT

Ottawa, Ont.—Yon. G. D. Robertson, Minister of Labor, announced recently, that the government is making a quick survey of unemployment conditions in Canada, and that the employment service council has been called to meet here on August 21 to consider information which will have been gathered by that time.

After the council has discussed the situation disclosed, recommendations will be made concerning the situation. The government will then form a basis for unemployment relief measures to be introduced to parliament at the special session early next month.

In the last day or two, the minister stated, the Department of Labor has communicated with all the provinces and with the mayors of municipalities with population of 10,000 or more, asking them to advise the department as near as possible the extent of unemployment and to estimate what the situation will be during the coming winter. They have been asked to send the information in within 10 days, so that the department will be able to sift the data and have ready for the meetings of the unemployment service council.

Wheat Exports Increase

Nearly 900,000 Bushels Exported From Vancouver In One Week

Vancouver, B.C.—Nearly 900,000 bushels of wheat were exported during the past seven days, according to the weekly report of the Vancouver Board of Harbor Commissioners.

The actual total for the past week was 869,100 bushels. The export this season to date is 1,370,285 bushels, as compared with 431,068 bushels at the corresponding date last year. The elevators had in stock 5 a.m., a total of 6,049,229 bushels, and the railways had 1,516,300 bushels on British Columbia division, or in terminals here. There were ships in port for 170,156 bushels.

Injured In Car Collision

London, Ont.—Hon. Donald Sutherland, Minister of National Defense, and Frank Smith, M.P. for Brant, in a motor car, were slightly injured when their automobile struck a truck and overturned in a ditch.

GLOBE CIRCLING FLIGHT ENDS IN CRASH

John Henry Meach, of New York, who took off from Roosevelt Field in globe-circling flight in an attempt to beat Graf Zeppelin time for the same trip but crashed at Harbor Grace, Newfoundland. His plane was wrecked.

Meeting Of C.M.A.

Tariff Section

Understood That Organization Is Opposed To High Duties

Toronto, Ont.—Canadian manufacturers representing every branch of industry in Canada, were represented at the meeting of the tariff section of the Canadian Manufacturers' Association held here.

Officials of the organization declined to give out anything for publication regarding the meeting, which was the regular gathering of the section and holds all its meetings in camera.

It is understood the question of advanced duties on boots and shoes, leather goods, automobiles and automobile accessories and other items were discussed.

The tone of the meeting is said to have been against high duties generally with a moderate increase on the duties of Canadian goods as a help to Canadian trade and the reduction of unemployment.

The matters dealt with at the meeting will be submitted to the executive council meeting of the association, to be held after the regular meetings of the transportation, commercial intelligence, and industrial relations committees within a short time.

Liquor Restrictions

New Brunswick Regulations Aimed To Prevent Excessive Drinking

Fredericton, N.B.—Addition restriction calculated to reduce drunkenness under the operation of the New Brunswick Liquor Control Act, has been authorized by the provincial cabinet.

The regulation states that "after conviction of selling or keeping liquor for sale, or of drunkenness, or for being found drunk twice within 12 months, a person shall not be entitled to purchase liquor for three months after conviction."

Compulsory Military Training

Wellington, N.Z.—A bill for temporary suspension of compulsory military training has been introduced in the House of Representatives by the government. It is intended as a measure of economy.

JAP PARTY TOURS CANADA

Leading business men of Japan, arriving at Vancouver recently from the Far East, aboard the Canadian Pacific liner "Empress of Canada," received an official welcome from Mayor W. H. Maslin, and representative Canadian business men during their two-day stay in the Canadian west coast port. The Japanese party is headed across Canada on a national tour if inspection, then going on to New York, thus planning a visit to the United States and returning to Victoria, B.C., September 4th, by way of San Francisco and Seattle. The party includes prominent merchants, department store owners, Seichiro Sato, chief engineer of the Japan Artificial Ice Company, and Shigetaro Matsui, advisor to the Hiroshima overseas development association. While in Canada and the United States they will make close studies of the industrial and commercial ventures in which they are interested.

Fire Destroys Quebec Village

Property Damage Is Estimated At \$200,000

Masson, Que.—Between 590 and 600 persons are homeless, and nearly 50 houses destroyed—such is an estimate by Rev. Monsignor Routhier, parish priest of Masson, of the damage which swept this little town recently.

Mons. Joseph Lafamme died during the fire, and although not injured in the fire, it is believed the shock hastened his death. Property damage was estimated at \$200,000. No one was killed and no one received serious injuries in the blaze.

This well-ordered community on the banks of the Lièvre River, 21 miles from Ottawa, was bewailing a devastation, of a character difficult to describe. An area of over a quarter of a mile square which this morning housed nearly 120 families was simply a heap of smouldering embers. Red tongues of flame flicking up from piles of charred debris spoke eloquently of the disaster which had befallen Masson.

Restrict Immigration

Dominion Government May Take Steps To Regulate Entry

Ottawa, Ont.—Indications are that steps will be taken by the Dominion Government to restrict immigration from Canada. While no official announcement was made at the conclusion of a meeting of the cabinet, it is understood the matter of immigration was under discussion.

Any action taken, it is believed, would be aimed at the restriction of immigration from European countries so as not to add to the unemployed. It is rumored that the Canadian railway agreements respecting immigration will not likely be renewed, especially under present conditions. A statement on the subject of immigration may be issued shortly.

SAYS JUSTICE TO ALWAYS GOVERN ADMINISTRATION

Ottawa, Ont.—Hon. Arthur Saupe, parliament-general, in a statement declared that "justice, honesty and economy" should be the guiding principles in administering the post office department.

The text of the statement of the postmaster reads:

"Justice, honesty, economy, such shall be my policy in the administration of the post office department. The law which governs us shall be respected with discrimination and the regulations shall be observed with scrupulous exactness."

"Racial, religious or political fanaticism shall never prevail with us. I shall continue to consider them as the most dangerous enemies of the country."

"I shall follow to the letter the policy of an honest man and a good Canadian, directed by the head of the government; a policy of peace, conduct and of sound protection which will ensure the rational development and utilization of all the desirable resources of our country."

"The employee who have, without reserve, conformed to the law, understood their duty in their observance of impartiality and who have impartially shown the respect due to the political authorities have nothing to fear from me."

"I shall make a distinction between the latter and those who have constituted themselves the active agents of the development association. While the latter are honest and law-abiding, the latter are infamous criminals. It would be unjust and cruel, for instance, to put out on the street, without reason, a good father of a family who has been in office for a number of years and who cannot find it difficult to work elsewhere."

"It is I believe in the post office department that certain classes of employees are the most exposed to indulge in political partisanship. A careful inquiry will be made in regard to everything concerning my department, in order to avoid, as far as possible, injustices and errors. I do not infallible and if I should commit an error, I shall do my best to repair it."

"The assurances given to me by the deputy minister, whom I have known for a long time, as well as by the heads of other branches, justify me in believing that I shall be able to carry out, with success, the administration of my department."

"I have very highly appreciated the act of courtesy and deference of my predecessor, Hon. Mr. Vernet, who came loyally to call upon me and to give out the most important information."

IS SATISFIED WITH RESULTS OF WHEAT PARLEY

Toronto, Ont.—Expressing complete satisfaction with the result of the conference of western premiers held at the conference at Ottawa, when officers of the wheat pool, the provincial premiers and Prime Minister Bennett discussed the financing of Canada's grain, Hon. J. T. M. Anderson, premier of Saskatchewan, left for Regina.

"A fine time," was his first word. "I'm perfectly satisfied with the result of our visit in the east. No, I have nothing further to say about the wheat situation; it has been pretty thoroughly done up the past two days."

But in our last conversation you will recall I spoke of some new plans. First is the establishment of a correspondence with the course whereby children of settlers and farmers in remote areas—any child more than four miles from a high school—may take the courses by mail and write off the examination paper at the nearest examination point.

"We hope by this that many more will be able to avail themselves of correspondence courses. It is possible at present. Along the same line we are instituting this fall the course whereby children of settlers and farmers' sons so they will be able to assist in mining development in the north."

"I am sure in line with our assumption, this October first, of our own natural resources. We are planning to develop our resources to the best of our ability and will leave nothing undone which we believe should be done."

Red Menace In China

Communists Advancing Against Nanking and Other Important Points

Nanking, China.—Communists were reported advancing against this Nationalist government capital and the cities of Hankow, Hanyang and Wuhan, 600 miles up the Yangtze River from the sea.

The city was virtually defenceless and appeared should the Reds continue their threatened attack. Few defenders remained within the 32 mile wall circling the capital, practically all troops having been drawn to fronts on which the government and northern rebels are fighting for supremacy in China.

Uneasiness was rife here as possible winter Communists and appeared in surrounding towns armed with rifles.

Many suspected Communists were summarily executed at Hankow. Thousands of terrified Chinese poured into the city, frightened from their outlying homes by the invaders.

Eskimos Bound For Cuba

Make Journey By Dog Sled and Canoe From Arctic Circle To Southern China

Burlington, Iowa.—Three Eskimos and their Canadian guide who left the Arctic Circle last year and hoped to reach Cuba next, resumed their journey by canoe today, after an overnight stop at Burlington. The Eskimos, Charles Plaminkhe and his two sons, led by Frank O'Grady, said they left the Pas, Manitoba, winter 21, 1929, went to the Arctic Circle, returned to the Pas, and then set out for the south coast of Greenland. They said they continued by sled, they said, until the ice broke up. At Grante Point, where they had their first foot camp, and have travelled by that mode since. They expect to reach Havana early in 1931.

Makes Altitude Record

Regina, Sask.—Creating what is believed to be a record for western Canada, and breaking the Regina altitude flying record, F. E. Ketter of the Regina Flying Club, climbed to an altitude of 18,250 feet over the city on Tuesday afternoon, August 12. As Regina is about 1,800 feet above the sea level, Pilot Ketter actually reached the height of more than 20,000 feet.

Nearback Trails New West

Winnipeg, Man.—On the way to the "Pawhusks" the "Pawhusks" from Nebraska, invaded Winnipeg en route to Vancouver. Travelling over the line of the Canadian National Railways the "corn huskers," who are gathered from the rural population of the United States, are celebrating themselves the glories of Western Canada.

CHAMPION CHATTER

VOL. 3

No. 36

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

What Do You Think?

College is just like a washing machine; you get out of it just what you put in—but you'd never recognize it.

Win Your Motor Oil "Still the Best."

Professors: "Do you know how to find the horsepower of a car?"

E.E. Student: "No!"

Professor: "Easy—just lift the hood and count the plugs." (This don't apply to Mc-Dee.)

Jim—I'll bet you to a jelly.

Tina—What flavor?

For your future reference, it might be a good plan to look around and see what kind of service your neighbor is getting on his combine.

You will not be afraid of what you will see if its Mc-Dee.

"Good Equipment Makes a Good Farmer Better."

One of the most fulfilling things in the world is argument.

Our friends and customers who receive a letter from us this week will certainly do us a favor if they follow the suggestion.

John Klein has purchased 2 No. 4 Mc-Dee, ball-bearing cream separators. John is going to milk 30 cows, 15 on each farm.

Asker—So you're working on an invention that will make you rich?

Teller—Yes, it's a phonograph record that will explode after it's played the sixth time straight!

The season is on now for the big stories about big yields and big days of combining.

We have a real buy in an International truck. Look it over.

All Fieldwork is tickled pink with his recently

purchase of Mc-Dee tractor. We guarantee them when we recommend them.

The honeymoon is over when she wants a heater in the coupe to keep her warm.

Bill Porter is having trouble finding time to tell his neighbors and friends how well pleased he is with his new power take-off Mc-Dee combine.

R. I. Baker was in town for a short time this week.

Mrs. Fisher of Calgary spent the week with Mrs. S. O. Mifflin.

Mr. and Mrs. J. O. Reid of Airdrie were visitors here this week.

The Ladies' Aid will meet in the parlour on Thursday, August 28th.

Mrs. Grey of the Grosse Pointe is on a two months' visit to Portland, Oregon.

Miss Mildred Bower returned recently to her home here from Portland, Oregon.

Frank Hardisty of Spokane is here on his annual visit, looking after crop interests.

Mrs. Theriault attended the fifteenth wedding anniversary of her parents in Maine last week.

H. E. Gill and family were at Calgary on Sunday, leaving Miss Enn for a visit at G. Stoddard's.

James Brown and son, Jimmie, returned to Champion last week, after spending a month at Victoria.

Lieut. H. N. Heal is now at Sarcee camp and the dental office will be closed until August 25th.

Mr. and Mrs. Levi Ayyotte and son, Richard, arrived in town recently and are staying at their farm in the Valley.

Dressmaking, plain sewing and all kinds of mending at very reasonable prices. For further information phone 74.

The Drug Store phone is now No. 9, the same number as was previously used by Joplings' store. Remember this when you phone.

Mr. Ira W. Clark of Chilliwack, B.C., is visiting his daughter, Mrs. N. J. Patterson. Mr. Clark is on his way to Toronto Exhibition.

Mrs. H. G. McIlvaine, Miss Ethel Cowell and Miss Catherine Cowell are spending a holiday at Waterton National Park—Lethbridge Herald.

Mr. and Mrs. E. Cammish, of Taber, were visitors here this week. Mr. Cammish will be remembered as the former proprietor of the Savoy hotel.

K. R. McLean, R.O., of McLean and Anderson, Sight Specialist 208-8th Ave West, Calgary will make his monthly visit to Champion Friday, Sept. 20th, at the Drug Store.

Mr. and Mrs. A. Kramer wish to thank the neighbors and friends who rendered assistance during the recent illness in their family.

Mrs. F. C. Alcock returned home on Saturday after attending many W.I. meetings in her capacity of district director.

Vulcan Band Delights Audience

The busy season and the very warm evening interfered seriously with the attendance at the Vulcan Band concert on Sunday evening, a matter to be deeply regretted as the program rendered deserved a packed hall. Mr. Geo. Campbell presided in a very satisfactory manner. The applause with which every band number was greeted was evidence that music lovers in Champion were of the opinion that this band is fully deserving of its reputation of being "one of the best in Alberta," in fact that the field could be considerably widened in making the assertion. Miss Hartwig, the soloist, who was accompanied by Mrs. McAllister, was heartily endorsed at each appearance. Everyone will implement the chairman's wish that the band will make a visit

Mrs. O. Harper Thanks Fair Exhibitors And Workers

I wish to express my most sincere appreciation to the community for giving so willingly of their best products grown this year and last. To all who aided in collecting the exhibit, namely: J. N. Beaudrie, who gave his spare time and efforts; Fred Clever, John Cook, Mrs. Ulrich, Mrs. Mifflin, Mrs. A. D. Nelson, Mrs. Dow, To John Harper for building the shelves and making the miniature farm, which added so much to our display. To all those who aided in preparing the exhibit, namely: Mrs. W. A. Sammons, who willingly gave her home for that purpose; Mrs. Bastin, Mrs. Ulrich, Mrs. Mifflin, Mrs. Harry Smith; Misses Mollie, Freda, and Phyllis Bastin. To all who aided in decorating, and placing the exhibit, namely: Mrs. Moffatt, Mrs. Bonnier, Mrs. Bastin, Mrs. Dow, Mrs. Mifflin, Mr. and Mrs. R. A. McLeod and J. O. Harper. To Alva Baker for delivering the exhibit to Carmanagay by truck.

We were fortunate in being able to have Mr. Marcuse of Omaha, Nebraska to take several photographs of our exhibit. These will be on display soon in Champion. I am pleased that our community is taking a greater interest in this display each year. I only hope the interest keeps growing and as time goes on we can really say we exhibited the very best of every product that our community can produce.

MRS. O. HARPER,
Convener Exhibit Committee.

Where Will You Keep the Auto This Winter?

In the Fence Corner or on the Street?

That's far more costly than building a good garage.

May we submit a plan?
